Erratum

Correction to Andoh-Arthur, Knizek, Osafo, and Hjelmeland (2019)

In the article entitled “Societal reactions to suicide in Ghana: A qualitative study of experiences of the bereaved” by J. Andoh-Arthur, B. L. Knizek, J. Osafo, and H. Hjelmeland (*Crisis: Journal of Crisis Intervention and Suicide Prevention*, <https://doi.org/10.1027/0227-5910/a000618>) there was an error in Table 1. The total number of interviewed friends was 16. However, the total number of friends in the religious affiliations sub-sample came to 17. Instead of 16 Christians it should be 15 Christians. Thus, the correct table reads as follows (correction in bold):

The authors regret any inconvenience or confusion this computational error may have caused.
